CALUMET COUNTY SERVICES PROVIDED

CALUMET COUNTY PARKS DEPARTMENT provides many different outdoor recreational activities.

CALUMET COUNTY PARK is located on the eastern shore of Lake Winnebago just north of Stockbridge on County Highway EE. Activities include: picnicking, hiking and mountain biking trails, 6 lane boat launch facility/safe harbor of refuge with ample boat and trailer parking, modern toilet facilities and a popular camping area that has 71 campsites, of which 59 are electric sites for the modern camping RV. We also have several basic tent camping sites. For the winter enthusiast we have a tube hill with a tow rope, an area for sledding and cross country trails.

LEDGE VIEW NATURE CENTER is located on Short Road off County Highway G just south of Chilton and has the following activities: major events, cave tours, observation tower, interpretive center, leisure activities, nature activities, picnicking, snow-shoeing, cross country skiing and maple syruping.

STOCKBRIDGE HARBOR is one of the best boat launch/safe harbor of refuge facilities on Lake Winnebago. It is located on the west end of County Highway E in the Village of Stockbridge. This recently constructed facility includes: 6 launch/landing lanes, ample parking for boats and trailers, modern toilet facilities and access for offshore fishing.

You may use the docking slips on the north bulkhead for overnight docking. There is self-registration available for usage with electricity.

BROTHERTOWN HARBOR, the newest addition to the Calumet County Parks Department, is located on the east shore of Lake Winnebago in the Town of Brothertown. This launch was remodeled in 2009. The harbor has been dredged, three new wider launch lanes are now in place, and the entire parking area has been paved. Area lighting and a permanent pit toilet are additions to this boat launch facility/safe harbor of refuge.

BECKER LAKE PARK is located in the northeast corner of Calumet County near Brillion. Calumet County owns the southwest corner of land adjoining Becker Lake. Wetlands have been developed and prairie planted to recreate wildlife habitat. A trail has also been added through this park.

FRIENDSHIP STATE TRAIL is the trail that connects Brillion and Forest Junction along Highway 10, and was opened in late 2003. This trail was developed in partnership with the Wisconsin DNR, Calumet County and the Friends of the Friendship Trail.

This 6-mile trail passes through woods, scenic farmland and through the City of Brillion to Horn Park. CALUMET COUNTY HISTORICAL DATA

Calumet County was organized in 1836 under the laws of Wisconsin Territory. In 1840, Calumet County's territory was declared to be non-existent and it reverted back to Brown County. It was re-established on February 18, 1842 when the Act declaring Calumet County non-existent was rescinded. The boundaries of Calumet County were first set in the Revised Statutes of 1849, Chapter 20.

Originally spelled "Chalumet", Calumet County derived its name from a Menominee Indian Village lying on the east shore of Lake Winnebago. The name means 'peace' and signifies the Indian Pipe of Peace. "We Extend the Calumet to All Mankind" was first adopted as the County's official slogan by a county newspaper editor nearly a century ago. The Indians believed that the smoke from the Peace Pipes of the resident Menominees ascended to the Great Spirit from within the peaceful border of the County. Traces of prehistoric mound builders can be found today as evidence of their earlier occupation.

Calumet County is located between Lake Winnebago and Lake Michigan and boasts several parks on the shores of Lake Winnebago. It covers an area of 324 square miles or 207,360 acres. There are eight townships, five incorporated villages and seven cities.

The County Seat, originally located in Stockbridge, was moved to Chilton in 1856. The County's population at the time of incorporation was 275. By 1850, it had risen to 1,753. By 1860 census, it had grown to 7,895. Notwithstanding the Civil War, the population continued to grow. In 1870, it had risen to 12,335. Despite poor wheat yields due to disease and drought, the population increased to 16,631 in 1880 where it remained until the early 1960's. Explanations for this lack of growth include the outward migration of the wheat farmers, and the lack of urban centers. The County maintained a farming and manufacturing economy that was heavily reliant upon agriculture. After World War II, people began to migrate from the major city centers and the rural atmosphere became more appealing once more. This trend was a major reason why the population increased to 46,292 residents in 2008.

In 1839, Congress granted the Brothertown Indians rights of citizenship. In 1843, the Stockbridge Indians received similar recognition.

Earliest records available show that the first County Board meeting was held in 1851 in Stockbridge. The first courthouse and jail in the City of Chilton was a wooden structure built in about 1860 at the present site. It was destroyed by fire. The current front portion was rebuilt in 1912. During construction, the courts joined the other county officers located across the street. Once the Courthouse was completed in about January of 1914, the building across the street was used for the County Jail. The first County Board Session held in the new courthouse occurred on January 6, 1914. In 1976, a courthouse/jail addition was constructed to the east and north of the original structure. The second floor was added over the jail portion of the original structure in 1983 for Human Services. The most recent addition occurred in 1998.

The first newspaper was published in 1857, *The Chilton Times*, John P. Hume, Editor. Colonel Bean established the first bank in 1859 and named it the Shawano Bank of Chilton. The first steam boat to ply the waters of Lake Winnebago was built in Calumet County by the Brothertown Indians under the supervision of Peter Hoteling, a white man and later captain of the boat.

Calumet County...Did You Know?

Until the early 1800's, Lake Winnebago was marshy and filled with acres of wild rice. In 1850, the milling industry began constructing temporary dams on the Fox River and used water power to turn saw mills and flour mills. These dams raised the water level in Lake Winnebago by two feet, flooding 50,000 acres of marshy land and rice beds on the south and southwest sides of the lake.

Pleasure boating on Lake Winnebago began in the early 1900's. For 10 cents a ticket, water enthusiasts could go on 'excursions' on large passenger boats. The boats picked up passengers in Pipe, Brothertown, and Stockbridge and took them to Appleton and Oshkosh for shopping and dining trips. Orchestras and bands serenaded passengers as they sipped soda or beer and enjoyed the ride. The last excursion left Stockbridge in August of 1917.

The state's 16th largest tree is located in Calumet County—a cottonwood in Stockbridge. Calumet County has ten trees on the DNR's Wisconsin Champion Tree list.

Wisconsin's first public school teacher, Electa Quinney, is buried in Stockbridge.

Harry Steenbock, a Calumet County native and bio-chemistry professor at UW-Madison, discovered the effects that Vitamin D has on humans. His science determined that lack of Vitamin D is what caused rickets.

The Niagara Escarpment runs through the county. This great feature spans the middle of the North American continent connecting countries, as it stretches from Wisconsin, through Canada, and to Niagara Falls in the State of New York.

Lake Winnebago has the largest lake sturgeon population in North America. Lake sturgeon, a prehistoric fish, can grow up to 6 feet in length and 200 pounds. Female lake sturgeon can grow to be 150 years old!

In 2012, the largest sturgeon ever harvested on Lake Winnebago (a female) was 125 years old, weighed 240 lbs. and measured 87.5 inches.

Lake Winnebago is the largest inland lake in Wisconsin; however it is very shallow. It covers 215 square miles and 137,000 acres, but with a maximum depth of 21 feet.

Bald eagles can be found nesting in the trees along the shores of the Manitowoc River; osprey in the Brillion Marsh.

Deer hunting in the county's state wildlife areas brings in almost \$4 million annually in revenue. Hunting is the oldest human sport; nationally more Americans hunt and shoot than play golf.

Tourism contributes \$24 million to the local economy, but agriculture contributes \$253 million.

What has more economic impact to this region than the Packers/Lambeau Field (\$144 million/year) and EAA (\$80 million/year) combined? Fishing on the Lake Winnebago System, which generates \$234 million and supports 4,300 jobs every year.
