It's impossible to report everything we do on a daily basis or to reply to every comment or video made about us on social media. We are, however, a transparent agency and will always be open to sharing the facts. The video being circulated on social media is actually one of numerous calls our deputies have had with the resident in recent weeks. We were not responding to investigate a violation of the Safer at Home order, but rather a complaint made by the resident's neighbor.

Our deputies wear many hats on a daily basis, such as being an investigator, enforcer, peace maker, and counselor, to name a few. Our deputies have a tough job and sometimes they have to address multiple concerns during the same call. This recent video is just a short snippet of multiple interactions with one citizen and a small example of the complicated work our deputies do to ensure everyone in our community is safe and treated fairly. To date, we have issued zero citations, made zero arrests, and have not made any referrals to the District Attorney's Office relating to the Safer at Home order. Thank you to everyone who has reached out with your support of our deputies.
