

## **Calumet County Land & Water Conservation Department Manure Storage Fees;**

Approved Fee Schedule, June 2, 2022

Construction and Use Permit Application Fees:

**\$600** – Waste Transfer System. This fee assumes that Calumet County Land & Water Conservation is doing the design and construction inspection on the project. This fee applies to stand alone waste transfer systems only.

**\$300** – Waste Transfer System. Plans must be submitted by a certified Engineer or Agricultural Engineering Practitioner. After construction the Engineer or Agricultural Engineering Practitioner must submit certified signed as-built plans for the transfer system.

**\$1000** – Waste Storage Structure. This fee assumes that Calumet County Land & Water Conservation is doing the design and construction inspection on the project. This fee includes transfer systems when built in conjunction with a waste storage structure.

**\$500** – Waste Storage Structure. Plans must be submitted by a certified Engineer or Agricultural Engineering Practitioner. After construction the Engineer or Agricultural Engineering Practitioner must submit certified signed as-built plans for the storage. This fee includes transfer systems when built in conjunction with a waste storage structure.

**\*\*Permit fees may be doubled if activity occurs prior to permit issuance\*\***

No fees at this time for closure or conversion permits.
